COMPONENTS

XP INSTRUCTOR SUIT

Scan for item.

XP Instructor Shoulder Guards

- Padded shoulder area for unarmed and RedMan Training Baton strikes
- Reduces impact when instructor is taken to the ground
- Interlocks easily with Body Guard XP (required for Shoulder Guard use)

XP Instructor Throat Guard

- Layered coverage to throat
- Easily attaches to Traditional Head

Traditional Head

- Protects against infrequent and accidental light blunt force
- Provides comfortable, secure fit during dynamic situations
- Attachable Face Cage and Impact-Resistant Safety Glasses give important protection to face and eyes

XP Instructor Body Guard

- Ripped-look plastic trauma plates disperse impact
- Scooped neck allows for greater mobility of the head and neck
- Additional Velcro® at shoulder provides more secure fit
- Maneuverable design allows Body Guard XP to move and glide smoothly over the equipment positioned beneath it

XP Instructor Arm Guards

- Additional coverage for unarmed and RedMan Training Baton strikes
- Reduces impact from environment when taken to the ground
- Finger grips and straps keep Arm Guards secure during active simulations

XP Instructor Lower Abdominal Pad

- Provides layered protection of groin area from unintentional light blunt force when used with a cup and supporter and/or "No-Foul" Groin Guard

XP Instruction Rear Guard

- Layered coverage for misplaced unarmed and RedMan Training Baton strikes
- Reduces impact from surrounding environment when taken to the ground

XP Instructor Thigh Guard Harness

- Keeps equipment in place
- Harness supports at shoulder and waist to provide effective suit stability
- Fits comfortably underneath suit

Storage Bag, Instruction Manual Use and Care DVD and Repair Kit

XP Instructor Thigh Guards

- Available in two sizes
- Wrap-around design for greater coverage

XP Instructor Calf Guards

- Helps protect instructor's calf areas from unarmed and RedMan Baton strikes

XP Instructor Lower Leg Guards

- Ripped-look plastic at knee cap and along the shin provides the utmost protection
- Guards stay in place during dynamic simulations
